1. In January and February 1951, the draft board in As (O 51/P 10) compiled lists of the 1928 through 1931 classes from the registration files for the draft. As a result of this survey, it was discovered that many members of these classes had left to n and failed to inform the police authorities of their departure. The lists also included young women. *
2. In February 1951, the draft board in As was inspected by an official of a ministry in Prague, who was accompanied by an SMD official wearing blue epaulets and a blue cap band instead of the red epaulets and red cap bands previously worn by SMD personnel. It was said that the service color would be similarly changed for all SMD members. **
3. An interim military pass (Zatimni vojensky Prukaz) made out to ex-Private first Class Jaroslav Voboril was issued in Mlada Boleslav (O 51/G 02) on 23 May 1950 and mentioned induction unit Utvar No 9304 and an equipment issuing point in Mlada Boleslav.

25X1A: [REDACTED] Comment. The lists were compiled preparatory to the registrations in April 1951, which according to previous information, affected the members of the 1929 and 1930 classes.

25X1A** [REDACTED] Comment. In introducing new service colors for the SMD, Czechoslovakia followed the pattern of the other satellite countries. The SMD border guard troops changed to green service color. See [REDACTED]. However, 25X1A the internal security troops of the SMD wear the same blue service color as the KDW (Corps of Internal Security) in Poland, the internal security troops of the AVH in Hungary, and the security police in Rumania.
